

REGISTRATION

December 10 (Thurs) ~ 11 (Fri), 2015

등록비 안내 ____

구 분	회 원	비회원	학 생
사전등록 (11월 10일까지)	10만원	15만원	5만원
현장등록	12만원	17만원	6만원

연회비 제외 금액임

초록접수 마감 ____ 2015년 11월 10일 (화)

사전등록 마감 ____ 2015년 11월 10일 (화)

초록접수 방법

대한암예방학회 홈페이지 (http://www.kscp.or.kr/)를 통해 기한내 접수 ※ 초록발표자 반드시 등록

사전등록 방법 ____

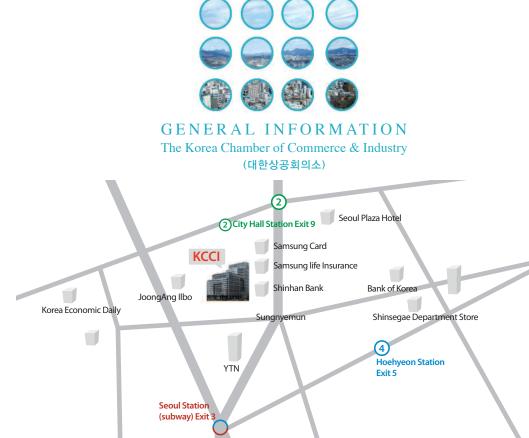

홈페이지를 통해 사전등록 접수 후 계좌이체 (신한은행 100-029-009244, 예금주:대한암예방학회)

- ※ 발표자 이름으로 송금
- ※ 홈페이지 사전접수 후 현장에서 카드 결제 가능

문의처 ——

Address: 39, Sejong-daero, Jung-gu, Seoul Tel: 82-2-6050-3114, Fax: 82-6050-3400

ABOUT JCP...

Journal of Cancer Prevention (J. Cancer Prev. pISSN 2288-3649 · eISSN 2288-3657), an official journal of the Korean Society of Cancer Prevention, is an international and peer-reviewed journal. J. Cancer Prev. is an open access journal. It is a quarterly journal published on the 30th day of March, June, September, and December. This journal is abstracted/indexed in PubMed Central, Korea Citation Index, e-nest, and Google Scholar. For subscription, submission and all other information, visit our website (http://www.jcpjournal.org).

Dear colleagues:

We cordially invite you to attend the Internal Conference on the 20th Annual Meeting for Korean Society of Cancer Prevention to be held on Dec, 10-11 at Korea Chamber of Commerce and Industry, Seoul, South Korea. To maintain an optimal healthy life style and to keep up with modern medical advancement are considered to be the most reliable and convincing strategies for cancer prevention. This conference will bring together re-

searchers, scientists and practitioners from academia, clinics, government agencies, and industry to present cutting-edge research ranging from basic to population-based and clinical studies on cancer prevention as well as therapy.

The scientific program will include plenary lectures and a series of symposia focusing on the latest research breakthroughs. In addition, a poster session will be arranged for young scientists to present their research progress. We are pleased to have many world-class scientists from different continents participate in this conference.

This two-day conference will provide a valuable opportunity for providing participants with the most updated information on the latest scientific advancement in the field of cancer prevention and related disciplines. I am convinced that this meeting will also be a platform for attendees to exchange their ideas and to launch collaborations

Finally, I would like to express our sincere appreciation to the sponsors who have provided generous financial support for the successful organization of the conference and awards for our next generation researchers. We look forward to your active participation and contribution.

With best wishes for an outstanding meeting.

Young-Joon Surh, Ph.D President Korean Society of Cancer Prevention

SCIENTIFIC PROGRAM

Day 1

December 10 (Thurs)

08:30~09:00	Registration
09:00~09:20	Opening Ceremony
	Opening Remark
	Young-Joon Surh (President, Korean Society of Cancer Prevention Seoul National University, Korea)
	Congratulatory Address
	Kang Hyun Lee (President, National Cancer Center Korea)
	About Journal of Cancer Prevention
	Marc Diederich (Editor-in-Chief)
	Session I
09:20~09:45	Simonetta Friso (University of Verona School of Medicine, Italy) Epigenomic Interface between Alcohol and Cancer
09:45~10:05	Ho Young Lee (Seoul National University, Korea)
	Novel Strategies for Lung Cancer Prevention
10:05~10:30	Irfan Rahman (University of Rochester, USA)
	Cigarette Smoke-induced Lung Cancer and Its Prevention
10:30~10:50	Coffee Break
	Plenary Lecture I
10:50~11:25	Waun Ki Hong (MD Anderson Cancer Center, USA)
	Cancer Interception Strategy to Prevent or Delay Cancer
	Session II
11:25~11:45	Sang Woon Choi (CHA University, Korea)
	Exploring the Mechanism by Which Walnut Influences the Stemness of Cancer Stem Cells
11:45~12:05	Jong Hun Lee (CHA University, Korea)
	Epigenetic Regulation of Phytochemicals on Nrf2 Expression in Prostate and Skin Cancer

Dec

12:05~12:25	Marc Diederich (Seoul National University, Korea) Chemopreventive and Therapeutic Effects of Natural and Hemisynthetic Compounds
12:25~13:40	Lunch
	Session III
13:40~14:05	Isaac P. Witz (Tel Aviv University, Israel) Site-specific Metastasis. Can It be Prevented?
14:05~14:25	Yun Han Lee (Yonsei University, Korea) Targeting Cell Cycle Kinase WEE1 Inhibits Cell Proliferation and Reduces Cancer Stemness in Hepatocellular Carcinoma
14:25~14:50	Huiyoung Yin (Shanghai Institute for Biological Sciences, China) Lipid Metabolism During the Progression of Human Hepatocellular Carcinoma (HCC): A Lipidomic View
14:50~15:15	Jacques Piette (FRS-FNRS Research Director, Belgium) Saturated Fatty Acids Activate NLRP3 Inflammation and Polarize Macrophages Towards an Unique Phenotype
15:15~15:35	Coffee Break
	Session IV
15:35~15:55	Young Ho Seo (Keimyung University, Korea) Finding the Sweet Spot:Targeting the Lysine 58 Residue of ATP-binding Pocket in the N-terminal Domain of Hsp90
15:55~16:20	James Turkson (University of Hawaii, USA) Targeting the JAK/STAT3 Pathway for Cancer Therapy
16:20~16:45	Franck Morceau (LBMCC, Luxembourg) Impact of Cancer-related Inflammation on Erythropoiesis Regulation and Anemia Development
	Special Lecture
16:45~17:15	Kun-Young Park (Pusan National University, Korea) Cancer Chemopreventive Effects of Korean Traditional Kimchi and Soy

Bean Paste

SCIENTIFIC PROGRAM

Day 2

December 11 (Fri)

12:10~12:30	Tae Il Kim (Yonsei University College of Medicine, Korea) Targets of Chemoprevention of Colorectal Cancer: Stem Cells, Microenvironment, and Metabolism
12:30~13:40	Lunch
13:40~14:40	Poster Presentation / Coffee Break
	Session VII
14:40~15:05	Diane Bimczok (Montana State University, USA) Retinoic Acid Pathways in Healthy and <i>H. pylori</i> -infected Gastric Mucosa Implications for Gastric Carcinogenesis
15:05~15:25	Yong Chan Lee (Yonsei University, Korea) Effect of <i>Helicobacter pylori</i> Oncoprotein on Epithelial Mesenchyma Transition of Gastric Cancer Cells
15:25~15:50	Shinya Toyokuni (Nagoya University Graduate School of Medicine Japan)
	Cancer as a Ferrotoxic Disease: What We Have Learned from Anima Studies toward Its Prevention
15:50~16:10	Chae-hyeong Lee (Dongguk University, Korea) Human Papillomavirus Vaccine to Prevent Cervical Cancer: an Update
16:10~17:00	Poster Awards & Closing Ceremony
